\*Load-bearing capacity is dependent on the concentric loading of the column. Eccentric (non-centered) load-bearing capacity available upon request.

\*\*8" x 5' 6" and 10" x 6" Round Knee-Wall Columns are cut from 8" columns. Not more than 2" should be trimmed from the bottom of the column in order for the base to fit properly.

Note: 2nd story balconies should not be attached directly to the side of any column, contact Dixie-Pacific™ for recommendations.

### Plan Types for Splitting DuraCast™ Columns
