Thickness ½” actual. 10” top & bottom accent wraps and a variety of moulding trim kits. 1x 12 x 12wrap, raised and tapered column wraps	Yes – nominal 8 x 8 x 9’ and nominal 10 x 10 x 9’ wraps. In a classic and estate version.
Code Approval	Yes – CCRR thru ATI, Inc. Includes 4 annual random in plant inspections.	Yes – ICC & CCMC code approval.
Painting	5A rating ASTM D3359. Machine coat warranties available thru paint manufacturers	Unknown - No independent test data available.
ASTM Test Data	Yes	Yes
Certified Green Product	Yes- Home Innovation Research Lab (2008 & 2012)	Yes - Home Innovation Research
AIA Presentations	Yes- Two for 3 CEU credits. Currently working on AIA-Environmental and AIA - Historical presentations	Unknown
Made in the USA	Yes	Yes
Environmental	Recycles 99% of all office & plant processed waste. Purchases cellular PVC scrap that meets our spec keeping it out of landfills	Yes- Very active in sustainability. Not sure what company does in the way of recycling.

- A Mixed nut unit is a blended unit of any combination of board widths (actual or nominal) at any one length in any one thickness. It’s great for projects (assisted living, multi – family and condo refurbish).
- Stealth is a term used by Versatex to denote a pocketed trim for accepting a siding product or in the case of beadboard an extended female leg for ease of fastening.
- Certainteed now has a WP4/Nickle Gap for 2018
